# ABOUT US

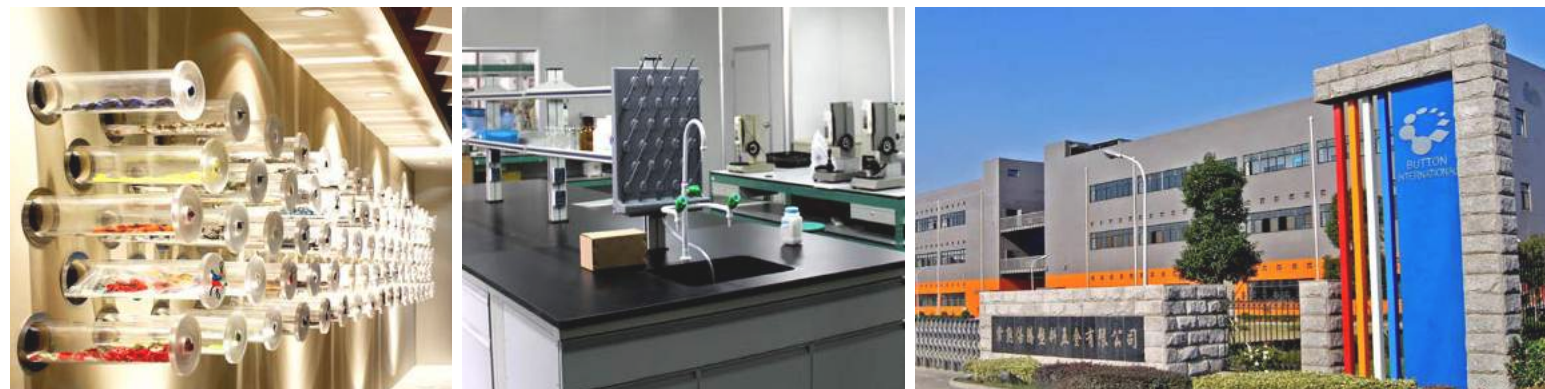

Established in 1994, Button International Ltd. was co-founded by four successful veterans in garment accessory industry, and named after the main product - snap button. We have wide range of products, including snap buttons, eyelets, zipper pullers, and other garment accessories.

Our design and R&D team are dedicated to developing OEM and ODM products, such as plastic, brass, zinc alloy, and eco-friendly series. With the refined product quality, Button International is well recognized in the garment accessory industry by featuring outstanding designs and R&D, manufacturing, rapid and friendly customer services.

Among rising global competition, we have implemented LEAN production system to better ourselves, increased the efficiency of product design to production, lead time reduction, and fulfilled the enquiries of our customers. To ensure the product quality, Button International has granted Oeko-Tex® Standard 100 class I and bluesign® certificate, to be involved the system under bluesign® criteria, the responsible environmental friendly way to meet the highest level for consumer safety.

Taking the trend of market opportunity, the favorable price, magnificent product and outstanding service to our customers are significant as we anticipated working with potential customers be to the best competitive advantage, and to build a long-term business relationship in the worldwide.

# bluesign®

As more consumers demanding high quality products which are environmentally safe, we face a challenge of not only meeting all types of test standards, but also conserving resources and reducing the environmental impact to a minimum.

bluesign technologies ag issues the five principles of bluesign® standard: resource productivity, consumer safety, air emission, water emission and occupational health and safety.

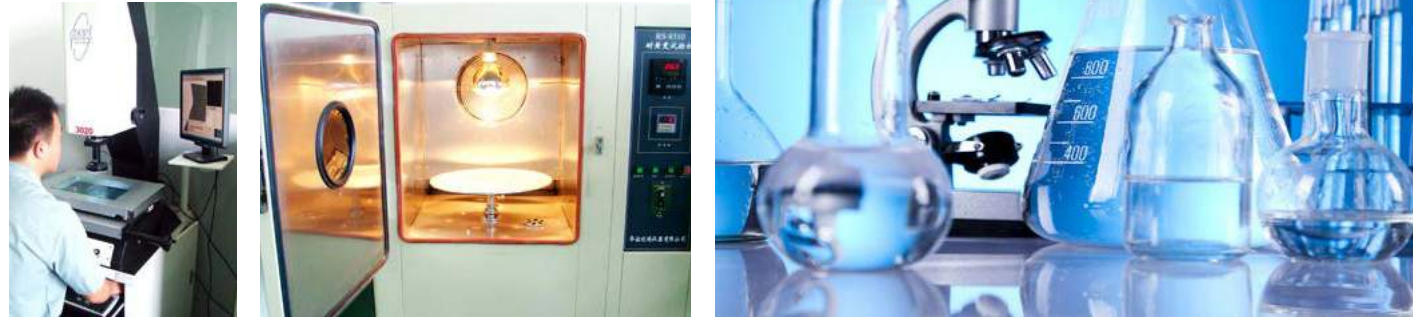

The standard involves detailed examination of all materials and processes as well as the impact of the production on the environment. The bluesign® standard guarantees sustainable production and products that are harmless to human being and environment.

After 2 years of dedicated hard work, Button International has obtained bluesign® certificate for metal and plastic, this is only one of our goals to continue moving forward and be innovative, and we will keep working with our best effort to providing the safest and newest products to our clients.

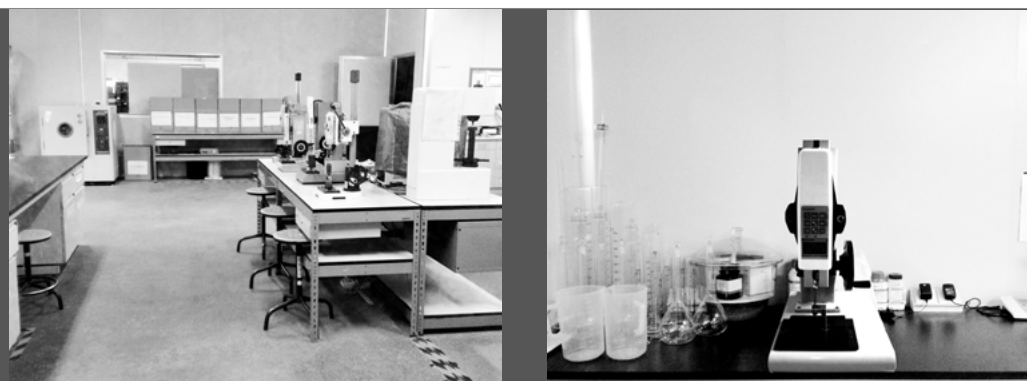

## LABORATORY

Our lab employees were trained and certified by Intertek for physical testings. Besides innovative designs and quality products, we are able to help our clients to adapt the rapid changing testing methods and standards quickly through the testing service of our lab, also to ensure our products with low production risk, high quality, and short development time.

## GLOSS PATTERN

Item NO.0010293

Item NO.0020139

Item NO.0010291

Item NO.0010328

Item NO.0310255

Item NO.0310142

Item NO.0341019

Item NO.0430166

Item NO.0410204

### KEY FEATURES

- » Brand logo or images without additional processes
- » No testing issue

## NYLON WASHER

FRONT

BACK

### KEY FEATURES

- » Better grip than traditional plastic washers
- » Doesn't hurt or cut the thinner fabric
- » Can be made by recycled nylon to save cost
- » Dye to match option available
- » One nylon washer to replace a set of plastic washer and aluminum washer

### MATCH WITH EYELET SIZE (mm)

**0310314**

▪ Polished lines throughout the matte surface of the button add depth to the appearance and color of fabric can be seen through the different effects.

**0310449**

▪ Fabric color can be shown through the cutout of button. The subtle on the hollow part appear the background fabric color to sense of multi-level.

**0320127**

▪ The idea comes from electronic products and the center is recessed.

# CORDLOCKS

Button International offers cord lock which are made up of quality raw material and have high strength. Available in different dimensions and they can be customized as per the specifications of our customers.

**BEFORE**

**AFTER**

**KEY FEATURES**

- Better stabilization
- Replacement for grommet & webbing
- One step application to save cost
- Combines eyelet and stopper into one product to save production time for garment makers.
- The appearance is also more simplified compared to the traditional eyelet+stopper set.
- The new designed eyelet stopper is smaller/lighter than the first generation product to accommodate the need for lighter designed clothing.

# CORDENDS

Button International has a large inventory of cord ends and plastic zipper pull ends. Application of these items can be used with clothing and sports apparel, backpacks, travel bags, purses, and bags, as well as industrial products. The cordend could be used as a bead to ease drawcord tension, also helps the users to access the cord if they're wearing gloves.

The logos and designs displayed in this category are for reference only. The owners of the patents, trademark or copyright reserve all rights.

Item NO. **0350914**  
Material **NY**  
Size **15x10.5MM**  
Inner Size **Ø3.2MM**

**KEY FEATURES**

**Nylon Clip On Bead**  
The appearance coordinates with 0350912 (shield shape eyelet stopper), the bead could be clipped on after the cord and the stopper are assembled.
